

Class 2 CSR BC05-MM Stereo Transmitter

BTA-130

The BTA-130 Bluetooth Stereo line-in Adapter enables your non-Bluetooth music players to work with Bluetooth receiver such as stereo Bluetooth headset or Speaker. You can listen to your favorite music without the hassle of wires while still maintains good sound qualities. Thanks to its simple pairing design, it can be easily paired with any standard A2DP sink profile without entering the PIN code.

The BTA-130 also includes rechargeable battery which makes it become the best companion of your music player. The fully charged 190mAh battery can provide working time up to 6 hours.
